Agreement to Confidentiality in Group

In an effort to create a group class environment where people feel safe to share, we ask that each member of the class agree to keep personal information about others in the group confidential. While we understand and expect that everyone will want to share what they have learned with others outside of the group, we ask that identifying information and details about another person's situation be omitted from your sharing.

Facilitators are committed to maintaining the confidentiality of each of the members of the group, and as such will not share personal information about any group member outside of the group. We will also not share personal information about you in the group when you are not present unless we have your express permission. Please note that while each group member signs the agreement to confidentiality, *Roots and Wings Consulting* cannot be held responsible for whether or not individual members of the group maintain each other's confidentiality.

I have read and understood the *Agreement to Confidentiality in Group*
